Subject: Final Report - Waste Characterization Analysis
Attachments: COC 7595992_frc - Waste Characterization Analysis - F.J. Doyle Salvage Site.pdf

Good morning, everyone.

Attached please find the final laboratory report that Sean and Evan were involved with.

The initial sample was taken from the "TSCA" grids; the second sample represents what our assessment data would characterize as our "non-regulated" grids and the last sample was a little of both. All looked good for our purposes.

Have a good weekend.

Regards,

Don
